CAREER OBJECTIVE

To secure a challenging role that utilizes my skills and experience to drive growth and innovation. Looking to join a dynamic team where I can apply my skills and experience to achieve success.

EDUCATION

G. Narayanamma Institute of Technology and Science (For Women) <i>BTech in Computer Science and Engineering</i>	2023 - Present GPA: 8.75
Narayana Junior College <i>Telangana State Board of Intermediate Education</i>	2021 - 2023 Percentage: 97.0
Narayana High School <i>State Board of Secondary Education</i>	2020 - 2021 Percentage: 100.0

TECHNICAL SKILLS

Programming Languages: Java, Python, C

Backend & Core Concepts: Object-Oriented Programming, Data Structures & Algorithms, Problem Solving

Web & APIs: HTML, CSS, JavaScript & REST API basics

Databases & Tools: MySQL, Eclipse, VS Code, Git

Data & Visualization: Power BI, Jupyter Notebook

PROJECTS

The Smart Walking Stick | *Arduino UNO, Embedded C, Ultrasonic Sensor, Moisture Sensor, Voice Module*

- Developed an assistive smart walking stick for visually impaired users to enhance safety and independent mobility.
- Enabled water detection through a moisture sensor with instant audio alerts via a voice module.

Fake Review Detection | *Python, Machine Learning, NLP*

- Developed a machine learning model to identify fake and genuine reviews using natural language processing techniques.
- Trained and evaluated ML algorithms to classify reviews with improved accuracy.

Genome Sequence Analysis Web Application | *Flask, Python, Biopython, Matplotlib*

- Built a web application for DNA sequence analysis with color-coded prediction outputs
- Enabled detection of sequence patterns including normal, mutation, and partial matches using Biopython

AI-powered Calling Agent | *NLP, Speech-to-Text, Conversational AI*

- Currently developing an AI-powered calling agent from scratch, focusing on natural (NLP), speech-language processing to-text and conversational AI to automate customer interactions.

CERTIFICATES & VIRTUAL EXPERIENCE

- JPMorgan Chase & Co.** Software Engineering Virtual Internship (Forage): Built Spring Boot + Kafka integrations, REST APIs, and H2 database storage.
- Participated in a **MERN Hackathon** 3-day VAC on Full Stack Development with an Internal Hackathon on Idea Submission.
- Tata Data Visualization:** Empowering Business with Effective Insights (Forage).

ACHIEVEMENTS

- Contributed to the success of **Nexora Hack Fest** as part of the **ISTE Team**, supporting event planning.
- Represented as a **Cabinet Minister** in a **college-level mock parliament**, demonstrating and decision making skills.
- Organized and participated in creative and cultural events as part of the **Talantia Club**.
- Hosted and led a college-level **Ideathon** in collaboration with **ACM-W** and **AIESEC**, managing speakers, a team of 4+ members, and 100+ participants.
